## NOTICE OF ALLOWANCE

### *Allowable Subject Matter*

1. It is in the opinion of the examiner that the art of record neither anticipates nor renders obvious “(claim 1) a fan driving control unit that on-off controls the cooling fan device; a temperature detecting device that detects an interior temperature of the reinforcing bar binder; and a comparison device that compares the detected temperature by the temperature detecting device with a reference temperature, wherein the fan driving control unit drives the cooling fan device when the interior temperature of the reinforcing bar binder exceeds the reference temperature...(Claim 6) a fan driving control unit that on-off controls the cooling fan device; a timer that counts a fan driving time, wherein the fan driving control unit starts to drive the cooling fan device when a trigger signal for a binding operation is received, and stops the cooling fan device after a predetermined time elapses” in combination with the rest of the claimed limitations set forth in the independent claim.

Based on applicant’s arguments and the examiner’s review of the Office Action of July 27, 2007, the claimed subject matter is deemed to be allowable. Further explanation can be reviewed in the applicant’s arguments filed on October 19, 2007. Therefore, it is concluded by the examiner that claims 1-11 of the present invention are allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
